ABOUT THE PROGRAMME

This Blended Intensive Programme brings together university staff to explore how higher education can support sustainability and respond to climate challenges. Through collaboration and practical learning, participants develop ideas for future-oriented and more responsible universities.

KEY TOPICS

-  Integral ecology approach
-  Environmental justice, intergenerational solidarity, and ecological debt
-  Environmental sustainability & climate action
-  Green campus models and best practices
-  Interdisciplinary cooperation
-  EU green policies in education
-  Sustainable institutional strategies
